Our goal at Foodicyn is to make Health SECCE. That's **S**imple, **E**ducational, **C**onvenient and **C**ost **E**ffective because after all being a healthy human being should never have been so difficult in the first place!

So, if you're sick and tired of always feeling sick and tired, why not give us a try and nourish yourCELLf like never before...

How does it work?

You start each morning with our **Gold Energy Tonic**. Diluted with water, this hot or cold tonic allows you to awaken and flush the digestive system giving all negative impurities a stream to exit the body.

It's fibre rich whole food ingredients kick-starts your metabolism which helps keep cravings at bay and the vitamins start energizing your mitochondria, the brains of the cell.

Your belly tells your brain "I've got this" and before long, you feel light and lively ready to take on the day.

When you're hungry, reach for a bag of our **Green or Red Energy Cocktail** and pour yourself a glass.

They serve the same purpose - to nourish yourCELLs abundantly everyday and you are in the drivers seat on how many glasses you consume in a day.

Our Green formula is made with 11 blended whole-food ingredients and tastes refreshingly light and lemony while our Red Formula boasts 15 ingredients with more colours of the rainbow and has a distinctive earthy sharpness.

Both are complimented with slight sweetness and are designed to taste like more, because...

Their alkaline state helps stimulate and activate the dormant cells, while the fibre gently sweep-in to clean the cell membrane.

The rich vitamins continue to feed the mitochondria for energy and the abundance of minerals penetrate the nucleus and start to do their job to repair and rebuild the DNA.

Then, when you feel hungry again, reach for our **Nutty Protein Porridge** and mix yourself a portion.

It's nuts, seeds, dried fruit and superfoods formula help keep your muscles and joints filled with the nutrients required to be ache and pain free.
